PROFILE SUMMARY

Full Stack Developer with hands-on experience in designing, developing, and deploying scalable web applications using the **MERN stack** (MongoDB, Express.js, React.js, Node.js). Proficient in both frontend and backend development, API integration, responsive UI design, and RESTful architecture. Strong problem-solving skills and a passion for learning emerging technologies. Seeking opportunities to contribute to high-impact projects and continue professional growth.

SKILLS

- **Frontend: HTML, CSS, JavaScript, React.js, Next.js, SEO, Bootstrap, Tailwind CSS, Material UI, Framer Motion**
- **Backend: Node.js, Express.js, REST APIs**
- **Database: MongoDB, MySQL**
- **Tools & Platforms: GitHub, Netlify, Vercel, Slack, Jira**

EXPERIENCE

MERN STACK DEVELOPER | SOFTGRID Info pvt. Ltd. | Sep 2023 TO PRESENT

- Developed dynamic and responsive web pages using React and Material-UI, ensuring seamless user experience and modern design.
- Implemented React Router for efficient navigation between pages, improving website usability and performance.
- Utilized useState and other React hooks to manage state effectively and create interactive user interfaces.
- Integrated REST APIs to fetch and display real-time data, enhancing application functionality.

PROJECTS

Gemstone Website – User-Facing E-Commerce Platform
- Developing a visually appealing and responsive gemstone storefront using **React.js**, **Tailwind CSS**, **HTML**, and **JavaScript.**
- Building features for users to browse gemstone categories, view benefits, read FAQs, and explore detailed product pages.
- Implementing dynamic components for search, filters, and product discovery to enhance user experience and engagement.
- Deployed the full-stack application on production server: https://zynotex.com/gemstone/user/

Gemstone Admin Panel – Frontend Dashboard
- Designed and developed a responsive admin panel using **React.js**, **HTML**, **Tailwind CSS**, and **JavaScript** to manage gemstone categories, benefits, FAQs, tags, and image uploads.
- Built dynamic form components for seamless CRUD operations and enhanced user experience within the admin dashboard.
- Focused on modular UI design and performance optimization for scalable integration with backend APIs.
- Deployed the full-stack application on production server: https://zynotex.com/gemstone/admin

Salon Hive – Full-Stack Admin Panel
- Developed a responsive admin dashboard using **React.js**, **Tailwind CSS**, and **JavaScript**, enabling real-time management of salon services and users.

- Built robust backend APIs with **Node.js**, **Express.js**, and **MongoDB** to support CRUD operations, authentication, and admin-level data control.
- Implemented dynamic UI elements for managing salon listings, categories, benefits, FAQs, and image uploads.
- Deployed the full-stack application on production server: salon.zynotex.com

Meeyau – Full-Stack Course Selling Platform
- Built a responsive e-learning web application using the **MERN stack** to allow users to browse, purchase, and access online courses.
- Designed an interactive UI with **React.js** and **Tailwind CSS**, including components like course listings, user authentication, and payment integration.
- Developed RESTful APIs using **Node.js** and **Express.js** to handle course data, user registration/login, and order processing.
- Integrated **MongoDB** for secure storage of course content, user profiles, and purchase history.
- Deployed the full application at: https://meeyau.com

Netflix-clone
- Developed a Netflix clone to practice full-stack development skills using the MERN stack.
- Used React.js to create an interactive user interface with components such as a homepage, movie details, and user authentication.
- Implemented server-side operations with Node.js and Express.js to handle API requests and user data.
- Link : https://entertainment-video-app.netlify.app/

Resume maker
- Developed a web application that allows users to create professional resumes.
- Used React.js, HTML, CSS, Javascript to create an interactive user interface.
- Link : https://geniusresumemaker.netlify.app/

Portfolio
- Developed a popular portfolio website to showcase my skills and projects.
- Used HTML, CSS, Javascript to create this website.
- Ensured the site looks good on all devices using responsive design principles.
- Added a contact section to allow visitors to get in touch easily.
